

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

IN this volume, Part II. of the Registers of St. Michael le Belfrey, York, we have the contents of Registers numbered 3, 4, 5, and of Register No. 1 of Marriages. The three first are all of parchment, the entries being in double columns; the Marriages are entered at one end of the Registers, and the Baptisms and Burials at the other. They contain the Marriages from 1653 to 1754 (from the latter year these were entered in separate volumes), and the Baptisms and Burials from 1653 to 1778. By Act of Parliament, 26 George II., special forms were issued for the registration of Marriages, and the first Register of these, bringing the Marriages down to 1772, is included in this volume.

Register III. contains the

Marriages from Nov., 1653, to Nov., 1673.

Baptisms from Oct., 1653, to Dec., 1673.

Burials from Oct., 1653, to Dec., 1673.

Register IV. contains the

Marriages from Feb., 1673-4, to May, 1716.

Baptisms from Jan., 1673-4, to Oct., 1716.

Burials from Jan., 1673-4 to Aug., 1716.

Burials from March, 1706, to Dec., 1706.

I. Marriages from 1706 to 1772, is a separate volume.

Marriages ever took place ; probably the ceremony was performed in other parishes. The Burials from March 25th to August 16th, in the year 1766, are entered twice, and to be found in both the Registers IV and V. Beyond being what is known as good Registers, containing the names of persons of position, both in the city and the county, there is nothing of special interest to be found in this volume. Perhaps the most noteworthy entries are those of the burials of John Brookes, in 1720, who is described as the "first hackney coachman" in the city of York, and of Thomas Langley, in 1777, described as a "chimney doctor;" neither the names of these persons, nor their callings, occur in the list of Freemen of York.

The Society has to thank the Rev. E. G. Carter for giving the Transcriber every facility necessary for ensuring a satisfactory transcript.
